

I thank GOD for His grace, mercy, and goodness that He bestowed upon me. Also, for walking with me through the good and the bad times of my life.

I also thank God for preparing and equipping me as I went through each bump. He walked with me through it all, even when I turned my back on Him, He was still walking with me.

I dedicate this book to all the women that have gone through something and think life hasn't been great or fair for them.

You're here to tell of God's goodness in your life. It's liberating and healing. You're built for this and with God's strength, you can accomplish anything. I pray you to resign from trying to run your life today and turn it over to God.
